Mayor.

ADDRESS

OF

HON. HENRY W. CLAPP,
MAYOR.

DELIVERED BEFORE THE CITY COUNCIL OF CONCORD, N. H.,
TUESDAY, JANUARY 27, 1891.

HON. H. W. CLAPP, MAYOR.

ADDRESS

OF

HON. HENRY W. CLAPP,
MAYOR,

DELIVERED BEFORE THE CITY COUNCIL OF CONCORD, N. H.,
TUESDAY, JANUARY 27, 1891.

11

35207

C74

1891

MAYOR'S ADDRESS.

Gentlemen of the City Council :

In accordance with the city charter we have accepted the oath of office, and find ourselves upon the beginning of a new year—through the trust confided in us by our fellow-citizens—here assembled to formally inaugurate the city government for the coming two years. To these citizens we have pledged ourselves for an impartial and economical management of the city affairs.

Permit me, before proceeding further, to express through you, to my fellow-citizens, my appreciation of the honor they have bestowed upon me in designating me to fill the highest office it is their privilege to bestow. In accepting this honor, it is my purpose to honor them by a faithful and conscientious discharge of all the duties that devolve upon the office.

It is evident that the people of this city desire business men to govern their affairs. Our administration will be successful just so far as we respond to this demand. The same rules that apply in our business should be followed in governing our city. There should be no places for partisanship, or disposition of the spoils to the professional politician. The qualifications for office under this government should be integrity and capacity, meaning that there are no favorites or sinecures under a business man's government; that there are no side entrances to these council chambers, and that judgment rules instead of sentiment.

Whether such a government shall result from our coming together depends, in a great measure, upon you. There are so many able men among you, and you represent so

many different business pursuits, that great ability and valuable personal experience can be brought to bear upon every matter that shall come under consideration.

As the city fathers, we should guard the city's interest as we would those of our own families. These two years will be full of responsibilities, new to many of us, and whatever is referred to our consideration, the decisions made should be the outgrowth of careful deliberation.

Remember, that we are to consider matters for the future as well as for the present. Criticisms must be expected until our methods shall have been proved by trial. From the moral and upright we shall receive nothing but approval, and from all just men their whole support. And the whole city will feel the effects of such an administration by increased prosperity and unison of feeling.

This is the era of healthy growth and prosperity all over the land, and the rising generation demands of us to keep abreast of the times in all our doings. What has sufficed in the past may be entirely wrong to follow in the future. We must so legislate that our various industries will surely remain here, and must endeavor to attract toward our city much of the idle capital that always seeks investment in a wide-awake municipality.

FINANCES.

Funded debt of the city,	\$82,300.00
Precinct funded debt (state-house loan),	26,000.00
" " (sewer bonds),	12,000.00
Water-works loan,	435,000.00
Union School District bonds.	116,000.00
School District No. 20 bonds,	4,500.00
Penacook Sewer Precinct Bonds,	21,000.00

CITY DEBT NOT FUNDED.

Notes on account of highways,	\$8,000.00
Coupons overdue, not presented,	187.50
Bond overdue, not presented,	250.00
Interest accrued, not yet due,	1,048.49

PRECINCT DEBT NOT FUNDED.

Coupons overdue, not presented,	\$255.00
Interest accrued, not yet due,	370.00
City bonds becoming due in 1891,	13,250.00
Precinct bonds becoming due in 1891,	2,000.00
Interest on city bonds due in 1891,	4,262.00
Interest on state-house loan bonds due in 1891,	1,560.00
Interest on sewer bonds due in 1891,	480.00

AVAILABLE ASSETS.

Cash in treasury,	\$41,016.30
Tax 1889, uncollected,	90.95
Tax 1890, uncollected,	19,705.95
Due from Merrimack county,	5,383.32
Interest on Union School District bonds, due in 1891,	\$4,640.00
Interest on School District No. 20 bonds, due in 1891,	180.00
Interest on Penacook sewer precinct bonds, due in 1891,	840.00
Amount of sinking fund due from Penacook sewer- age precinct in 1891,	500.00

LIQUOR AGENCY.

Sales for the year,	\$3,952.84
Cost of liquors sold,	2,995.94
Expenses,	942.66
Net profits,	14.24

It is my duty to call your attention to the condition of the several departments of the municipal affairs. I shall add such suggestions and recommendations as seem in my judgment to be wise.

In our public schools we may justly take pride, and I mention them thus early, because it is to them that we must look for helpful work in the training of youth and in the making of character.

The Board of Education may congratulate itself upon

the material results of the last two years, as evinced by the substantial, commodious, and even elegant school-houses which have been erected. The cost of the new buildings has been,—

Franklin school, including the removal and refitting of the old building,	\$16,432.81
Kimball school,	57,673.61
High school,	80,000 00

We find efficient teachers in every department; and in our superintendent, Mr. L. J. Rundlett, we have one who has by earnest labor brought the course of study pursued here to a high standard, when compared with that of other cities in New England. I am not aware that any proposition for further building is likely to come before you.

WATER DEPARTMENT.

When our water-supply was first received from Penacook lake, it was supposed it would abundantly satisfy the demands to be made upon it. This is an instance in which foresight was somewhat obscured by the extent of future progress. Time has revealed to us more growth in our city's population than was then anticipated. The result is a deficiency in the necessary force of our water-supply. Added to this increase of population in the city proper has been the annexing of Penacook, West Concord, and Millville.

That some definite and immediate action should be taken is very evident. Its capacity is taxed to its utmost every day, and should a conflagration occur in our midst we should be embarrassed in our efforts to control it. Especially is the deficiency in our water force noticeable in the part of our city known as "on the hill." There are located many of our handsome residences, and there, too, can be found valuable land for further building, if sufficient water privileges can be provided there.

In the business portions the water commissioners have

had continually to refuse any more requests for water as a motive power, and thus, in many instances, it interferes with successful business enterprise. With all these forcible facts staring us in the face, it will be disastrous to the interests of our city if we close our eyes to this condition of our water-works. From partial investigation by the water commissioners these facts have been ascertained, and it follows that we must seek increased supply from some body of water of higher elevation. Two remedies have been considered,—the one a pumping-station, the other an enlargement of the present gravity system.

The first action upon this matter will of course necessitate the issue of new bonds. To many of our citizens the first thought of “new bonds” is increased taxation, and that occasions dissatisfaction. I shall endeavor right here to correct this common error. Water bonds differ from many other city bonds in the fact that they are self-sustaining. Capitalists stand ready to assume our whole water debt, and pay a handsome premium. Added to this are the annual prices paid for the use of the water, and from the various kinds of business waiting for opportunity to use water is derived an income which puts a different phase upon these bonds than those, for instance, incurred by sewerage, which receives no annual income from usage.

This is a matter of importance which we may have to consider, and, should it assume definite form in real action, I hope we shall be wise in our decisions, and that they will result in accomplishing better water facilities.

The rapid growth and development of our city proper for the past few years will increase the work of the sewer committee. Our sewerage is good, but it should be a matter of constant care to guard against the advent of those diseases which in too many instances have their origin in a lack of good and sufficient drainage.

Some new sewers will be called for this year. I would recommend an extension of one as far as the south-west corner of White Park. Another should be put in on the

new Prospect street, to be entered from the east side of North State street, and the one already begun at the South End should be completed. It should be the policy of this committee to meet the demands as rapidly as possible, and to begin the work as early as the spring will admit.

The board of health, to which all sanitary matters are referred, is composed of gentlemen well qualified for the service. That the result of their labors in the past has produced a more healthful atmosphere, all will concede. This is a department which considers matters of vital importance. Every citizen should be awake to danger, and confer with this board upon all matters injurious to health which come under their observation. Then even more efficient results can be arrived at by the officials.

The Margaret Pillsbury General Hospital, the land and building for which have been provided by the munificent gift of our former citizen and ex-mayor, Hon. George A. Pillsbury, is a grand monument of philanthropy. The gratitude of our citizens will ever flow towards the giver. Here indeed will be a home for the sick and suffering, where professional skill and tender care will ever minister to their necessities. Fortunate is the city which has friends like the donor of The Margaret Pillsbury General Hospital. Our appropriation toward its support may well be a generous one.

The free public library, in the Fowler building, is a literary treasure open to every citizen. Now that its use is free, the demands upon its shelves are steadily increasing. A liberal appropriation for its maintenance and enlargement is called for by considerations of both public honor and public need.

White park, the gift of Mrs. Armenia S. White, has, during the past summer, made a most commendable development, and has been a very delightful surprise to many of our citizens. The value of the gift is only beginning to be appreciated as it should be. Mr. Charles Elliot, of Boston, the landscape architect, whose taste has aided in its development, says nature has done more to make this spot

suitable for a beautiful park than for any like convenient locality which he has known in our state.

The commissioners have expended the limited appropriations granted with marvellous results. I recommend for its development an appropriation larger than last year, so that old and young may the earlier enjoy the beautiful park in its fuller extent. A substantial fence should be built along its southern front, and a desirable addition to its northern area can be had for \$700. For these purposes I recommend an appropriation.

There is within our reach at the South End a very desirable woodland park. The trees on it are the growth of a century, and, to save them from being cut down, the tract has been purchased by some public-spirited gentlemen, and will, I understand, be offered to the city in memory of our late distinguished townsman, Hon. Edward H. Rollins. I shall recommend that it be accepted, and that suitable measures be taken for its preservation and future improvement.

HIGHWAYS.

The work upon our streets should be begun as early as the weather will admit. Macadamizing should be continued wherever the city travel demands it, keeping of course within bounds of the appropriations. The stone we have been using of late is not of sufficient hardness throughout. The soft stone wears down, and in time gives an uneven road. The stone chips from the stone-yards here will cost somewhat more, but will be worth much more for Macadamizing.

More new sidewalks will be called for, and some of the old ones need repairing. Better street-crossings in some localities should be laid. I doubt whether there is a community anywhere no more populous than our own which has so many miles of streets and sidewalks to maintain.

This work in the past has been well carried out in most instances, but in order to receive the full value of the

money thus invested there should be constant repairs. The compact part of the city should have attention first, the outside wards receiving their proportion of the appropriations. The people in these wards owning work-teams should be recognized in distributing the work of repairs in their locality, instead of sending teams from the city proper.

- The office of commissioner of highways, as now constituted, gives all the power of action to one man, which has been fully demonstrated during the past few years. The mayor and aldermen are devoid of any authority in the dictation of the work of this department, so important to tax-payers. This arrangement, so independent of the voice of the mayor and aldermen, does not give perfect satisfaction. To modify it somewhat might give better results.

Our street electric lights have increased from seventeen to fifty-one. Luxury after a time becomes a necessity: so it has proved itself to be with electric lights. When we come to know the fact that several gas lights are dispensed with for each new electric light, they are not as expensive as was at first supposed. Adding a few more each year will give satisfaction equal to the expense incurred.

The question of rebuilding the Free bridge must come up for consideration, and be acted upon very soon. In my judgment, a bridge of substantial construction should be built. A modern iron bridge would never be a matter of regret to our city.

FIRE DEPARTMENT.

This department is in a condition very commendable. Its members are all worthy citizens, of great courage and ready action. To provide them with every available means to carry out the work required of them should unhesitatingly be attempted. With the recently purchased steamer, added to the apparatus already in use in the city proper, the department is well equipped as far as the able-bodied men and apparatus go, but sufficient water force is

wanting. Unless this want is speedily supplied, the other efficiencies of the department may avail us but little.

The number of alarms in 1890 was thirty-two; of these, sixteen were what are called still alarms.

The loss of property was \$35,657.67.

The electric fire-alarm has proved itself of great value, and has responded with accuracy in almost every instance.

By the death of the late chief-engineer, Mr. C. C. Blanchard, the city lost an efficient officer and the firemen a personal friend.

Our new chief-engineer is discharging his duties successfully.

The steward of the Fire Station should have more suitable apartments, removed from the immediate vicinity of the horses.

I would recommend the purchase of a pair of new horses immediately, and also that a pair of horses be kept at the station throughout the day, in readiness for action.

Some new "fabric hose" will be wanted at Penacook and West Concord. The usual appropriations will probably maintain the department.

Several of the city buildings need repairing, especially the Good Will hose-house and Ward Six ward-room. A special appropriation of several hundred dollars should be made for such repairs.

The Police Department, as now organized, has a marshal, assistant marshal, six patrolmen, and a number of efficient special officers. Our city has been orderly, and crimes of the most noticeable kind have been few. In several instances criminals have been hunted down with praiseworthy efficiency and skill.

In this department, harmony and good discipline are very necessary to good work, and care should be taken in the selection of our police. Physically strong, in character beyond reproach: these are recommendations that should be considered rather than political preferences.

The uniformed squad of police deserve special mention

for the admirable manner in which they have done escort duty in this city and several others. It would be a matter of much regret if this imposing line of men should cease to be an organization.

The new building for a police station and ward-room seems to be adequate to its purpose.

The city ambulance, in my opinion, should be under the immediate control of the police.

Blossom Hill cemetery has been in the hands of a competent committee, and satisfactory progress has been made in the adornment of the city of the dead. To continue this is, of course, our duty. I would suggest that more be done for the proper preservation of the Old North cemetery.

I wish, also, that our administration might witness the building of an appropriate gateway to Blossom Hill—perhaps the gift of some fortunate friend, who might thus do honor to himself and the dead.

I have submitted to your consideration the condition of the city finances, and other points of vital importance to the future of our city. Only as far as I can see now have I recommended improvements. I reserve the privilege of communicating to you, from time to time, any additional changes which, in my judgment, the needs of the city demand.

I refer you to the reports of the several committees for a more extended account of the work of the past two years.

My obligations should be expressed to the retiring mayor for much friendly counsel and aid.

After this brief expression of opinion, I think we are ready to enter upon our duties, and I feel sure they will be performed with courtesy and harmony. Coöperation must be our stronghold. By what we do, rather than by what we say, will our fellow-citizens judge us. I trust that when we retire from office it may be said of us that we have deserved the good opinion of all reasonable men.

HENRY W. CLAPP.

REPUBLICAN PRESS ASSOCIATION, RAILROAD SQUARE

1891

MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract said liability.

The city will not be holden for merchandise sold or delivered on city pauper account, except on the written order of the Overseer of the Poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county pauper account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts, and no order will be given for its payment.

When bills are certified to as above, and left with the city clerk before 12 o'clock of the day of meeting of the Committee on Accounts, they will be audited by them, and, if approved, be ready for payment on the Thursday following.

Meetings of the Committee are held on the Thursday next preceding the third Tuesday in each month, at 2 o'clock p. m.

JOSEPH A. COCHRAN, *City Clerk*.

CITY GOVERNMENT,

CONCORD, N. H.

Inaugurated fourth Tuesday in January, biennially.

1891.

July 1, 1899,	4,	semi-annually,	500
			\$4,000.00
Interest accrued, not yet due,	.	.	80.00
Net liability on account of school-districts,	.	.	\$122,400.00

These bonds were issued under ordinances of the city council, as authorized to do by the act of the legislature of New Hampshire, approved August 14, 1889, entitled "An act authorizing the city of Concord to borrow money in aid of its school-districts." These school-districts have, by their votes and by their agents duly authorized, bound themselves to the city to seasonably pay to the city sufficient sums of money to enable it to meet the payments of interest and principal upon their indebtedness, and all incidental expenses, as the same shall become due.

PENACOOK SEWER PRECINCT.

SEWER BONDS, payable as follows :

When due.	Rate of interest.	Interest payable.	Amount.
August 1, 1898,	4,	semi-annually,	\$5,000
August 1, 1903.	4,	semi-annually,	5,000
August 1, 1908,	4,	semi-annually,	6,000
May 1, 1913,	4,	semi-annually,	5,600
Whole amount of bonds issued by the city for Penacook Sewer Precinct,			\$21,000
Interest accrued but not yet due,			300
			\$21,300

Amount of the sinking fund accumulated, including interest,	\$1,541.64
Net indebtedness on account of Penacook sewer precinct, Jan. 1, 1892,	19,758.36
	\$21,300.00

Net indebtedness on account of Penacook sewer, Jan. 1, 1891,	\$20,300.00
Decrease for the year,	541.64

The above bonds were issued under ordinances passed by the city council, establishing a sewer precinct in Penacook, and authorizing loans on the credit of the city for the establishing of said system. The ordinances also provide that the yearly interest and a portion of the principal shall be raised each year, for the purpose of creating a sinking fund to pay said bonds as they mature, as follows :

\$500 annually for ten years from August 1, 1888,

\$1,000 annually for five years from August 1, 1898,

\$1,200 annually for five years from August 1, 1903,

\$1,000 annually for five years from May 1, 1908,

by taxation upon the taxable property in Penacook Sewer Precinct, said sums, as soon as received, to be placed at interest by the finance committee.

RECAPITULATION.

Net regular municipal debt above assets,	\$45,137.83
Net precinct debt above assets,	552,070.00
Net school-district debt,	122,400.00
Net Penacook sewer debt,	<u>19,758.36</u>
Aggregate indebtedness over available assets,	
Jan. 1, 1892,	\$739,366.19
Aggregate indebtedness over available assets,	
Jan. 1, 1891,*	<u>654,542.10</u>
Increase for the year,	\$84,824.09

*In the recapitulation in last year's report, the aggregate indebtedness over available assets was given as amounting to \$654,392.10. It should have been \$654,542.10, and this last amount is here given as the indebtedness at that time.

It will be noticed that the increase of the indebtedness of the city arises principally from the expense incurred in the extension of the water-works system, \$80,000.00; also in the building of the Lower bridge, the purchase of a house for the use of the steward of the central fire station, the extension of High street, and other improvements, which amounted to \$28,392.56. If these extra expenses had not been incurred, a handsome reduction would have been made in the municipal debt.

ALBERT I. FOSTER,
Collector.

To the City Council:

The undersigned, collector of taxes for the years 1889 and 1890, respectfully submits the following report:

1889.

REPORT OF COMMITTEE ON FINANCE.

The books of the city treasurer have been examined, and compared with those of the city clerk, by the Committee on Finance, and all the accounts are found to be correctly kept, with proper vouchers on file for all payments. All the bills allowed by the Committee on Accounts and Claims have been paid, and no claims against the city which the city would be liable to pay are known to remain outstanding, with the exception of those mentioned under the heading of unfunded debts; and the balance in the hands of the treasurer is twenty-two thousand seven hundred forty-two dollars and eighty-five cents (\$22,742.85).

HENRY W. CLAPP,
GEORGE F. UNDERHILL,
HENRY McFARLAND,
JOHN H. COUCH,
CHARLES W. BLANCHARD,
Committee on Finance.

CITY EXPENSES

FROM JANUARY 1 TO DECEMBER 31, 1891.

Being an itemized account, made up from the books of the City Clerk, of the payments made by the City Treasurer on account of

RUNNING EXPENSES.

The arrangement of the details of expenditure which follows is intended to furnish such information as is desired by the public, and is in accordance with suggestions received from various sources. Items of payment to the same individual at sundry times are included in the aggregate amount given, if paid for the same objects. Every effort has been made to ascertain and pay all the bills for the current year; and in all cases, so far as known, payments of rent, etc., have been made to December 31, 1891, and salaries and committee service have been paid for the full municipal year. The expenses of the year, which are included in the general running expense, may be seen in the aggregate at the end of the detailed account here given. This is intended to include interest, but not the payment of maturing bonds.

Deficiency brought from transfer account,	2.10	
	<u> </u>	\$302.10
Paid as follows :		
Lee Brothers,	\$169.29	
A. C. Ferrin,	132.81	
	<u> </u>	\$302.10

LIGHTING STREETS, PENACOOK.

Appropriation,	\$600.00
Paid as follows :	
Andrew Linehan, treasurer,	600.00

* There were two sets of men at work at the same time on the Broadway sewer and the South End sewer, and the pay-rolls for the week ending July 3 were \$86.50 for the Broadway sewer, and \$119.50 for the South End sewer.—making a total of \$206.00.

Instead of getting two separate orders, as ought to have been done, the amount of both pay-rolls was put in one order, No. 575, and made out and charged to the South End sewer; and so, to make it right, \$86.50 ought to come out of the general sewer account and paid to the South End sewer account.

PENACOOK SEWERAGE PRECINCT.

Appropriation for sinking fund,	\$500.00	
for interest on precinct bonds,	840.00

Amount carried forward,	\$256,913.58

Amount brought forward,	\$256,913.58
Cost of distribution-pipe,	209,559.60
service-pipe,	33,547.40
engineering and superintendence,	7,582.42
incidentals,	6,531.19
high service construction in 1891,	<u>82,036.41</u>
Cost of the works, Jan. 1, 1892,	\$596,170.60

Bonds of the city have been issued to pay a part of said cost as follows:

When due.	Rate.	Amount.
April 1, 1892,	6	\$200,000.00
" 1894,	6	130,000.00
" 1895,	6	20,000.00
Nov. 1, 1896,	4	10,000.00
" 1897,	4	10,000.00
" 1898,	4	10,000.00
" 1899,	4	10,000.00
Oct. 1, 1912,	4	45,000.00
		<u>\$435,000.00</u>

The balance of said cost has been paid in part from the income of the works, and in part by taxation. It will be noticed that items properly chargeable to construction account are included in the expenditures of the present year. Similar expenditures have been made each year.

REPORT OF WATER COMMISSIONERS.

To the City Council:

The Board of Water Commissioners submit herewith their report for the year ending December 31, 1891.

It will be seen by the report of the superintendent to the board,—to which your attention is called for the details,—that the receipts for the last year have exceeded the expenditures; and the payment of interest on the bonded indebtedness, by the sum of \$8,911.69, being a gain of \$2,678.24 over the previous year. The continued growth of our city, and the consequent enlargement of the work, are shown by the fact that nearly one third more distribution-pipes have been laid, also a gain in the whole number of service-pipes of 158.

This increase in the extensions, and with but little additional cost in the maintenance, is a gratifying condition of affairs, and if continued in the same ratio, will enable the city to care for not only the interest but also the retirement of some of the bonds.

In July, 1891, three of the oldest members, in point of service on the board, resigned: Mr. John Kimball, Mr. William M. Chase, and Mr. Samuel S. Kimball; these gentlemen have served on the board for many years, faithfully and efficiently, and with marked ability.

Three new members were chosen,—Mr. James H. Chase, Mr. Willis D. Thompson, and Mr. William P. Fiske.

In accordance with opinions expressed in the last report, and the growing demand for a better service for the elevated portions of the city early in the year, the board secured the services of Mr. Percy M. Blake, civil engineer, of Hyde Park, Mass., to investigate and report upon a plan for bringing water from Walker pond in Webster. The matter was thoroughly investigated, plans were

submitted, and Mr. Blake's report, together with an analysis of the water by a leading expert, were printed and distributed. It was found that so large an expense would have to be incurred, in case the plan was adopted, that it did not seem feasible to the board; so the matter was dropped.

A plan had been submitted earlier by Mr. Blake: it was to take water from one of the mains leading from Penacook lake, by means of a pump to receive and force it into a reservoir located at an elevation, and from the reservoir distribute it in a manner which would give sufficient pressure at those parts of the city which now suffer a lack of water.

This last plan was adopted by the board, and preparations were made to begin the work as early as possible, and although what seemed valuable time was consumed in perfecting plans and awarding contracts, a good beginning was made, and as soon as the season will permit, the work will be pushed to completion.

After careful consideration, it was decided to locate the pumping station at the junction of North State and Penacook streets, on land of Mr. Moses H. Bradley; and the reservoir on Penacook street, on land of Mr. J. B. Walker.

The sum of \$87,036.41 has been expended, the largest item being for cast-iron pipe. It will be seen by the detailed report that a 20-inch pipe has been laid from Centre street through North Main and Fiske to Penacook street, and it is the intention in the spring to continue the 20-inch pipe down North Main street from Centre to Freight, and a 16-inch pipe from Freight street to West street; pipe for which extension is now on hand. The hydrants now on Main street will be reinforced by additional and larger ones; thus, with future extensions, our business portion will be amply supplied for fire purposes for many years.

Your honorable board passed an ordinance authorizing the expenditure of a sum of money for the extension and development of the works, and of that sum a temporary loan of \$80,000 has been made by the city treasurer.

In April of this year, \$200,000 of the City Water-Works bonds, now bearing 6 per cent. interest, will mature. An ordinance has been passed authorizing the refunding of these bonds, also one to issue new bonds for the extension, and we expect, that with the high credit of our city and the showing of the Water-Works, they will

sell at a much lower rate of interest, and a good sum be realized by the sale.

All of which is respectfully submitted :

GEORGE A. YOUNG,
WILLIAM P. FISKE,
JAMES L. MASON,
JOSEPH H. ABBOT,
WILLIS D. THOMPSON,
JAMES H. CHASE,
HENRY W. CLAPP, *ex officio*,
Water Commissioners.

REPORT OF THE SUPERINTENDENT.

To the Board of Water Commissioners :

I herewith present to you the annual report of the operations of this department, showing the receipts, expenditures, and abatements, together with a statement of extensions and improvements made, during the year ending December 31, 1891.

RECEIPTS.

For water from consumers,	\$45,697.74
From delinquents,	44.77
For use of meters,	84.90
rent of Cooledge house,	100.00
rent of Cooledge lot,	10.00
rent of stable at Penacook lake,	40.00
rent of office,	75.00
pipe and stock sold,	123.01
	\$46,175.42
Deduct abatements,	100.26
	\$46,075.16
Total receipts for 1891,	

EXPENDITURES.

R. D. Wood & Co., cast-iron pipe,	355.26
Thomas Watkins, pipe-jointer,	8.50
National Meter Co., meters,	242.00
Charles H. Eglee, laying pipe, and ma- terials,	130.47
Pay-roll, labor,	2,660.70
Concord & Montreal Railroad, freight,	51.73
Engineering News,	5.00
Edmund R. Angell, water analysis,	6.00
Incidentals,	158.49
	<hr/>
	\$12,763.47

The expenses are divided as follows :

For management and repairs,	\$3,466.28
new service-pipes,	1,847.09
new distribution-pipes,	6,601.60

For hydrants and gates for new work.	\$719.00	
lowering the grade in Pleasant street by Street Department.	129.50	
	—————	\$12,763 47

All the water rents for the year have been collected, and it will be noted that the works have been self-sustaining, and that there is a balance of earnings amounting to \$8,911.69. In other words, the income has been sufficient to pay the expenses of maintenance and the cost of the new distribution- and service-pipes laid during the year, amounting to \$12,763.47, the interest upon the water-works debt, \$24,400.00, and to leave the balance above named.

EXTENSIONS AND IMPROVEMENTS.

Main- and distribution-pipes have been laid, and hydrants set, during the year, as follows:

In Giles street,

 from School to Centre street, 300 feet 8-inch pipe.

In Centre street,

 east from Giles street, 425 feet 8-inch pipe.

In School street,

 from Giles to Fruit street, 575 feet 6-inch pipe.

In Fruit street,

 from School to Pleasant street, 1,065 feet 6-inch pipe and 1 hydrant.

In Woodman street,

 west from Fruit street, 195 feet 6-inch pipe.

In Broadway,

 from near West street to precinct line, 1,841 feet 6-inch pipe and 1 hydrant.

In Allison street,

 from South street to Broadway, 712 feet 6-inch pipe.

In Morton street,

 from Harrison to near West street, 480 feet 6-inch pipe.

In new street near Street Railway electric power station,

 from West Concord road to near power station, 550 feet 6-inch pipe and 1 hydrant.

In Hanover street,

 from Centre to School street, 600 feet 4-inch pipe.

In alleyway, rear Phoenix Hotel,

150 feet 4-inch pipe.

In Waverly street,

72 feet 4-inch pipe.

In Rollins court,

north from Chapel street, 195 feet 4-inch pipe.

In Oak street,

125 feet 4-inch pipe.

In Fuller street,

from Marshall to Oak street, 88 feet 4-inch pipe.

In Harrison street,

from Badger to Morton street, 230 feet 4-inch pipe.

In Badger street,

from West to Harrison street, 600 feet 4-inch pipe.

In Pleasant street,

from Main street to Railroad square, 185 feet 6-inch pipe re-laid on account of changing the grade of the street.

IN PENACOOK.

In Rolfe street,

from Merrimack to Penacook street, near depot, 1,824 feet 6-inch pipe and 2 hydrants.

In Washington street,

from Charles street to near Contoocook river, 655 feet 6-inch pipe and 1 hydrant.

On hydrant branches, 112 feet 6-inch pipe.

Summary of the Foregoing.

<i>Pipes.</i>	<i>Hydrants.</i>	<i>Stop-Gates.</i>
1-in., 663 feet.	Main line, 1	4-in., 10

8-in., 725 "	Pleasant street, 1	
	Fruit street, 1	
	Broadway, 1	
	PENACOOK.	
	Summer street, 1	
	Washington street, 1	
	Rolfe street, 2	
11,457 feet.	9	29
—equal to $2\frac{1}{6}$ miles		

SERVICE-PIPES.

There have been laid during the year, and connected with the main-pipe, 161 service-pipes, consisting of,—

158 $\frac{3}{4}$ -inch,	4,016 feet.
2 2-inch,	34 "
1 4-inch,	13 "
<hr/>	<hr/>
161	4,063 feet.

Whole number service-pipes, 2,588; number discontinued, 3; number in use at present time, 2,585.

Whole number feet, 60,573, equal to 11.47 miles.

There have been repaired during the year 19 leaks on the main-pipes and 8 leaks on the service-pipes.

The following table shows the height of water at Penacook lake on the first day of each month:

January,	179.90	July,	182.35
February,	180.60	August,	181.50
March,	181.00	September,	180.30
April,	183.45	October,	178.95
May,	184.40	November,	177.60
June,	183.35	December,	176.45

The lowest point reached was December 24, being 175.60; the highest was April 19, 184.60;—mean height, 180.00, which was 1.90 feet lower than during the year 1890. The lake has been lower during the fall than at any time since the fall of 1885, and advantage was taken of this low water to remove stumps and otherwise generally clear up the shore of the lake, and I would recommend, should the present low water continue, that this work be extended until the entire shore be freed from stumps and decaying matter.

HIGH SERVICE.

The contracts for the new high service system were awarded to the following persons:

For furnishing cast-iron pipe and special castings, R. D. Wood & Co., of Philadelphia, Penn.;

For building reservoir, George W. Hendrick, of Easthampton, Mass.;

- For laying pipe and setting gates and hydrants, Charles H. Eglee, of Flushing, N. Y. ;
 For furnishing valves and hydrants, Ludlow Valve Manufacturing Co., Troy, N. Y. ;
 For drawing pipe, Brown & Abbott, of Concord ;
 For building foundation of pumping station and coal shed, Brown & Abbott, of Concord ;
 For building pumping station and draught chimney, E. B. Hutchinson, of Concord ;
 For furnishing granite paving-blocks, New England Granite Works, of Concord.

Very good progress has been made on the works, and the following is the construction account to January 1, 1892 :

CONSTRUCTION ACCOUNT.

Paid R. D. Wood & Co., pipe,	\$49,885.63
Builders' Iron Foundry, castings,	973.52
Davis & Farnum, "	577.66
Ford & Kimball, "	23.00
Ludlow Valve Mfg. Co., valves and hydrants,	5,980.33
Walworth Mfg. Co., gate-boxes,	420.10
George W. Hendrick, building reservoir,	7,071.66
M. H. Johnson, stone bounds,	10.50
Charles H. Eglee, laying pipe, setting gates and hydrants, etc.,	7,939.40
Brown & Abbott, drawing pipe,	1,093.40
William D. Ladd, unloading pipe,	37.50
Brown & Abbott, building foundation pumping station and coal shed,	2,095.02
George W. Chesley, drawing grade at pumping station,	169.65
Brown & Abbott, team-work,	80.00
George L. Theobald, team-work,	31.50
Concord & Montreal R. R., freight,	51.92
E. B. Hutchinson, lumber and labor,	36.99
Kimball, Danforth & Forrest, lumber and labor,	11.62

Paid pay-roll, labor,	\$422.12
Engineering, etc., including expenses of Walker Pond project,	4,504.55
T. M. Drown, analysis Penacook lake and Walker pond,	230.00
Engineering News, advertising,	4.40
Republican Press Association,	158.82
N. H. Democratic Press Co.,	5.80
Ira C. Evans,	7.50
Incidentals,	213.82
Moses H. Bradley, land for pumping station,	5,000.00
	<hr/> \$87,036.41

The expenses are divided as follows :

For building reservoir,	\$7,455.55
pipe and special castings,	51,549.23
gates and hydrants,	6,400.43
laying pipe, setting gates and hydrants, etc.,	9,064.30
pumping station,	2,415.01
engineering, etc., including expenses of Walker Pond project,	4,531.55
incidentals,	620.34
land and pumping station,	5,000.00
	<hr/> \$87,036.41

Work was commenced on the reservoir about the middle of September, and was continued until the 7th of January, 1892; the amount of excavation to that time, was as follows :

5,536 cubic yards of earth excavation.
2,397 " " " rock "
20 " " " embankment.

All the valves and hydrants, and nearly all of the pipe, have been received; and pipes have been laid, and valves and hydrants set, as follows :

In North Main street,

from Centre to Fiske street, 2,317 feet 20-inch pipe and 6 hydrants.

In Fiske street,

from North Main to North State street, 1,045 feet 20-inch pipe and 1 hydrant.

In North State street,

from Fiske to Penacook street, 509 feet 20-inch pipe and 1 hydrant.

In North State street,

from Penacook street to near cemetery gate, 1,662 feet 18-inch pipe and 2 hydrants.

In High street,

from School to Auburn street, 380 feet 14-inch pipe.

In Auburn street,

from High street to new street to the reservoir, 2,146 feet 14-inch pipe and 1 hydrant.

In High street,

from Warren to School street, 652 feet 12-inch pipe.

In Liberty street,

from Pleasant to Warren street, 659 feet 12-inch pipe.

In Centre street,

from Huntington to High street, 1,441 feet 10-inch pipe and 1 hydrant.

In Centre street,

west from High street, 25 feet 8-inch pipe.

In Tahanto street,

from Centre to School street, 400 feet 6-inch pipe.

In Forest street,

from Auburn to Valley street, 535 feet 6 inch pipe.

On hydrant branches,

18 feet 10-inch pipe and 320 feet 6-inch pipe.

Summary of the Foregoing.

—equal to 2.30 miles. Whole number hydrants now in use, high and low service, 204. Whole number gates now in use, high and low service, 495.

There is now on hand sufficient 20-inch pipe to lay down Main street as far as Freight street, and 16-inch pipe to lay from Freight to West street; also 20-inch pipe to lay in Penacook street from the pumping station to the reservoir, and about 2,200 feet of 14-inch pipe for the new street from Auburn street to the reservoir; besides all the gates and hydrants and a portion of the special castings necessary to complete the work.

The foundation of the pumping station and coal shed has been completed with the exception of setting the underpinning of the pumping station, which will be finished in the early spring.

I wish to express my thanks to the board for the courtesy and counsel extended to me through the year; and not only to the present board, but also to those members who closed their connection with us a few months ago, do I feel very grateful for their many favors and hearty coöperation.

To the employés my thanks are due for the interest each has taken in the welfare of the department; the new high service system has placed additional duties upon them, and I am pleased to say that all these have been performed with the same cheerfulness and efficiency that have always characterized their usual labor.

Respectfully submitted:

V. C. HASTINGS,

Superintendent.

RULES, RATES, AND REGULATIONS

ADOPTED BY THE BOARD OF WATER COMMISSIONERS. JANUARY 7,
1892.

TO TAKE EFFECT APRIL 1, 1892.

ANNUAL RATES.

A family of not over two persons,	\$4.00
A family of over two persons and not over eight,	5.00
Each additional person over eight,50
Bath-tub, for not over eight persons,	3.00
Each additional person over eight,50
Barber-shops, for each chair,	2.00
Fountains, flowing 12 hours per day for five months, from 1-16th to 1-8th inch opening,	\$3.00 to 8.00
Heating apparatus for houses,	2.00
Horse or cow, each,	1.00
Hose, for washing windows, sprinkling grounds, and washing carriages where two horses or less are kept, for the season, to be used not more than one hour each day,	\$3.00 to 6.00
Hose, for washing carriages, each horse over two, in addition to the above,50
Hydrants, public,
Hydrants, private, to be used only in case of fire, no charge.	
Offices,	2.00
Shops, not over six workmen,	4.00
Each additional person over six,50
Steam engines, determined by meter or special rate.	
Stores and markets,	\$4.00 to 15.00
Street-sprinklers, special rate.	
Trough, public watering,	20.00
Urinals, self-closing, for not over eight persons,	2.00
Each additional person over eight,25
Wash-bowls, set, each,50
Water-closets, self-closing, for not over eight persons,	3.00
Each additional person over eight,50

When water is used for purposes not specified in the foregoing, the rate shall be fixed by the Water Commissioners.

METERS.

Whenever the Water Commissioners may deem it necessary, on account of waste of water, or of use in unusual quantity, to ascertain the actual quantity used, they will place a meter on the premises, either at the expense of the consumer, or at their own expense, when the consumer will be charged ten per cent. of cost of meter and expense of setting per year for use, or consumers may place on their premises a water meter approved by the board, for the purpose of measuring the water used by them; and rates shall be made in accordance with the indication of the meter instead of the specific rates above given. But in no case shall the meter rate be less than \$10 per annum.

METER RATES FOR MANUFACTURING AND OTHER PURPOSES.

Averaging not over 50 cubic feet per day per 100 cubic feet,					\$.18
from 50 to 100	“	“	“	“	.16
100 to 200	“	“	“	“	.14
200 to 300	“	“	“	“	.12
300 to 400	“	“	“	“	.11
over 400	“	“	“	“	.10

All water that passes through a meter will be charged for, whether used or wasted.

If for any reason a meter fails to register, the consumer will be charged at the average daily consumption, as shown by the meter when registering.

REGULATIONS.**APPLICATIONS.**

Every person desiring a supply of water must make an application therefor at the Water Office, in such form as may be prescribed for that purpose: blanks for such applications will be furnished at the office.

The applications must state truly and fully all the uses to which the water is to be applied, and should any other use thereafter be desired, notice of the same must be given at the Water Office, and permission therefor obtained.

SERVICE-PIPES.

Service-pipes will be provided and maintained by the city from the mains to the side lines of the streets, of such sizes and in such locations as may be determined by the Board. All further pipes must be provided and maintained by the person supplied with water.

No service-pipes will be laid for any water rate less than \$4 per year.

Every service-pipe must be provided with a stop- and waste-cock on the inside of the cellar or foundation wall, and near where the pipe

passes through the same: easily accesible, and fully protected from freezing: and all pipes in buildings must be laid in such a way that they can be fully drained by that waste. When different families or tenants are supplied with water in the same building, a suitable stop-and waste-cock must be provided for each.

PIPES AND FIXTURES.

All pipes, fixtures, and apparatus must be examined and approved by the Board, or by its agents, before water is supplied to them: and all alterations and additions must be notified to and approved by the same, before they are put in use.

The pipes, fixtures, and apparatus provided by parties supplied, must be kept by them in good order, and repairs be made whenever required by the Board.

USE OF WATER.

No person supplied with water shall make or allow its use for any other purpose than stated in his application, or for which permission has been duly obtained; and all persons taking the water shall prevent any unnecessary waste thereof. *The water should not be left running to prevent freezing, or kept running at any time longer than necessary in its proper use.*

INSPECTIONS.

The agents of the Board must be allowed to inspect all pipes, fixtures, and apparatus, and to control the stop-and waste-cock whenever they may desire. They must also be allowed, whenever they think proper, to make examinations to ascertain the quantity of water used, the manner of its use, and whether any improper use or waste be made; and no concealment of its uses must be made by any party.

STOPPAGE.

The Board and its agents will have the right to stop the water from any pipes for repairs or other purposes, whenever they may deem it advisable, without notice.

USE OF HOSE.

Hose shall not be used, unless it has been properly applied for and allowed by the Board, and shall not be used without a nozzle; and the nozzle shall not exceed $\frac{1}{4}$ of an inch in diameter, unless specially authorized.

The use of hose for sprinkling pavements and grounds, washing windows and carriages, must not exceed one hour in any one day, and must be confined to the purpose specified in the application, without excessive or unreasonable use, and to the premises of the party himself.

All parties using water in stables for horses or cattle will be charged schedule rates for horses or cattle, whether the water is carried by hand or through hose.

PLUMBERS' RETURNS.

Plumbers shall make full return in writing to the Superintendent, weekly, of the ordinary and special uses for which the water is designed and for all new work, or for alterations, or for additions to pipes and fixtures.

RATES, WHEN PAYABLE.

All rates, except for meters, will be due and payable semi-annually *in advance*, on the first day of April and October in each year.

All bills remaining unpaid twenty days after due, *will be chargeable with an addition of five (5) per cent.*; and the limit of time allowed for payment will not be extended beyond fifteen days thereafter; and in all cases of non-payment of the water rent within that limit, the supply shall be cut off, and the water will not again be let on except upon the payment of the rent due, and the sum of two dollars for cutting off and turning on the water.

Rents and rates for meters will be payable on demand.

ABATEMENTS.

Any person whose tenement may become vacant, shall receive an abatement of the water rates appertaining to that tenement, upon the following terms and conditions: He shall sign upon the books of the Water Board, at the office of their Superintendent, notice that such vacancy exists, and a request that an abatement may be made on account thereof; and after such notice is given, an abatement shall be made for the number of *whole* calendar months that the vacancy shall continue; *provided*, that he shall give similar notice at the office of the Superintendent when the tenement is again occupied, but not otherwise. If the rates have been paid in advance, on account of which an abatement is due as aforesaid, the amount abated shall be repaid at the office of the Superintendent, at the semi-annual payment next after the time from which the abatement is claimed.

STREET DEPARTMENT.

STREET DEPARTMENT.

REPORT OF THE COMMISSIONER OF HIGHWAYS.

During the season a new wooden bridge with stone abutments has been built across the Soucook river at Clough's Mills, at an expense of \$1,681.50, of which one half was paid by the town of Pembroke, making the outlay for the city \$840.75. The new bridge takes the place of one that had been standing many years upon wooden abutments, and which had become entirely unsafe.

One bridge at Penacook, in the Borough district, has been newly shingled; the twin bridge in Penacook district, and the one at Sewall's Falls, will need to be repaired in the same way next season.

I would recommend the paving of Bridge street, between Main street and the dry bridge over the railroads. The road is exceedingly muddy in wet weather, and the expense incurred by such an improvement would be amply repaid.

Very little Macadamizing has been done the past year.

The extension of High street has been built the past season, at an expense of \$3,800.

The constant call for new streets and sidewalks, and the cost of building them, necessitates a considerable increase in the expenses each year.

Respectfully submitted :

ALFRED CLARK,

Commissioner of Highways.

There has also been paid to the city treasurer the sum of \$1,807.79, for amounts collected of abutters for their proportions of concrete sidewalks, as follows:

The collection of subscriptions for the street-sprinkling has been attended to, as heretofore, by Howard M. Cook, and the results are as satisfactory as could be expected under the present system.

The full account of individual subscriptions is presented for the information of the public.

All of which is respectfully submitted, as supplementary to the report, by

ALFRED CLARK,
Commissioner of Highways.

REPORT OF THE COMMITTEE ON SEWERS AND DRAINS.

To the City Council :

The Committee on Sewers and Drains would respectfully submit their report for the year ending December 31, 1891 :

Regular appropriation for sewers,		\$7,000.00
Amount received in orders on city treasurer,	\$3,279.63	
Amount returned to city treasurer, not used,	25.00	3,254.63
Balance unexpended,		\$3,745.37

It will be seen by a reference to the detailed account here given that there has been laid during the past year 3,351 feet of Akron sewer-pipe, in various streets mentioned, and repairs and improvements have also been made on some of the old sewers. As near as is practicable, an approximate cost on each line of street is here given, and it includes labor, sewer-pipe, cement, and, where man-holes were built, the brick and iron castings used in their construction. In the cost of the Curtis avenue and Prospect street sewer, and its extension, it also includes the land damages and the expense of moving the stone in Harry Phillips's stone-yard,—the whole amounting to \$80.00. The variation in the amount of the subdivisions and the full sum expended, arises from the incidental expenses for tools, teaming, sewer plans, surveying, etc., which could not be assigned to any particular street.

School street, 124 feet 8-inch pipe, and 128 feet 10-inch pipe,		\$131.18
Broadway, 340 feet 10-inch pipe,		302.75
Harrison street, 45 feet 8-inch pipe, and 295 feet 12-inch pipe,		248.69
Mills street, 294 feet 10-inch pipe,		136.53

Morton street, 200 feet 10-inch pipe, . . .	\$100.99	
Liberty street, 284 feet 8-inch pipe, . . .	240.61	
Rollins court, 176 feet 8-inch pipe, . . .	87.90	
Curtis avenue, Prospect street and extension to North State street, 277 feet 8-inch pipe, and 1,278 feet 12-inch pipe, . . .	1,650.68	
Water street sewer, repairs, . . .	41.14	
Cambridge street sewer, repairs, . . .	17.60	
	—————	\$2,958.07

From this statement, it appears that the largest amount expended was in the building of the Curtis avenue and Prospect street sewer, and its extension to a point on the North State street sewer just above Penacook street, a distance in all of 1,555 feet. Here was a section of the city where a number of tenement-houses had recently been erected by the Concord Development Co., and by other parties, and which was entirely destitute of proper sewerage facilities. It was necessary, in order to get the right inclination, to construct the sewer from the point mentioned on North State street through private land to Prospect street. On account of the delay in getting the petition for this sewer before the city council, the work on it was not commenced till about the middle of November. The season was favorable, however, for such kind of labor; the sewer was completed December 12, and fifteen connections were immediately made with it from tenements on the line. The sewers that have been laid on Harrison and Morton streets, and in Rollins court, were on streets that were recently opened up to the public, and sewerage has thus been afforded to houses that have been erected on them. It is the true policy, after the laying out of new streets and the erection of houses upon them, to keep pace in the march of improvement by granting petitions for sewers, and promptly building them, wherever it is practicable. During the coming year there will probably be calls for new sewers in various sections of the city; and the petition now before the city council, for the formation of a sewer precinct at West Concord, will, without doubt, receive the attention that it deserves.

THE NEW SOUTH END SEWER.

The new South End sewer was commenced in the season of 1890, and, according to the report of the Committee on Sewers and Drains for that year, 730 feet of it was built at an expense of \$3,543.24.

The amount appropriated for its construction,	\$12,000.00
Premium on bonds sold, and interest,	390.00
Total amount,	<u>\$12,390.00</u>
Amount expended in 1890,	3,543.24
Balance unexpended in 1890,	<u>\$8,846.76</u>
Amount expended for its completion in 1891,	\$8,930.35
Balance unexpended in 1880,	\$8,846.76
Amount brought from balance of precinct fund,	83.59
Total expenditure in 1891,	<u>\$8,930.35</u>

This would make the excess of the expense, over the amount that was available from the special appropriation, \$83.59. But it must be taken into account, that in order to make a safe and suitable connection above the curve on the Brook sewer, near Allison street, about 80 feet more of the sewer was built than was originally intended. It was through a bank eighteen or more feet in depth, and involved an extra expense for labor. The substantial stone outlet at the mouth of the sewer was also constructed this season.

The expense of building the whole line of this sewer may be stated as follows :

The 730 feet built in 1890 cost \$3,543.24, or about \$4.85 per foot.

The 3,350 feet built in 1891 cost \$8,930.35, or about \$2.66 per foot.

While the whole length of 4,080 feet cost \$12,473.59, or about \$3.05 per foot, which comes very near the original estimate.

Thus has been completed one of the largest and most important improvements in this direction that has been attempted in recent years. The South End sewer will not only relieve the Brook sewer of the great pressure that has been upon it, especially in the spring months, but will also afford sewerage to that portion of the city in the vicinity of Broadway and Pillsbury street, should the lots now vacant there be built upon. The new hospital, an institution of which every citizen of Concord should be proud, is also connected with it.

H. W. CLAPP,

FRANK P. QUIMBY,

HENRY McFARLAND,

JOHN B. DODGE.

Committee on Sewers and Drains.

REPORT OF THE PENACOOK SEWER PRECINCT.

During the past year no extension has been made in the sewerage except a few feet of the Brook sewer, which was necessary to prevent flooding certain gardens. During the summer all of the sewers were thoroughly flushed, and some trifling defects were remedied.

At the present time plans of the extension of the year 1889 are being made by the city engineer.

The sewers are now in an excellent condition, and I would suggest, that, as a large sum of money has been expended in their construction, it is of the utmost importance that great care should be exercised by all who make use of them to prevent their becoming obstructed, and that all catch-basins be frequently cleared of sand, as it is often difficult to locate an obstruction.

All connections made during the past year appear to have been done in a thorough and workmanlike manner. I would recommend that during the coming season the original plan of the sewerage be completed, which comprises a sewer through Rolfe street, and the extension of the Brook sewer to its terminus.

The following is a financial statement of the receipts and expenditures for the year.

RECEIPTS.

Appropriation,	\$200.00	
Pipe sold,94	
	<hr/>	\$200.94

EXPENDITURES.

Paid W. W. Allen, balance due 1890,	\$34.87

Henry Morrill,	44.10

Paid C. M. & A. W. Rolfe,	\$1.50	
Henry Morrill,	12.85	
Davis Bros.,	5.35	
Moses H. Fifield, storage,	2.00	
Balance,	99.27	
	<hr/>	\$200.94

Respectfully submitted :

JOHN B. DODGE,

Sewer Committee.

REPORT OF THE COMMITTEE ON ROADS AND BRIDGES, AND ON THE REBUILDING OF THE LOWER BRIDGE.

To the City Council :

The Lower bridge, a portion of which was carried away by the undermining of the west abutment and pier on March 27, 1891, has been rebuilt during the present season, and was opened for public travel on November 28, 1891, a period of eight months. The bridge has been constructed in a substantial manner. Both of the abutments and two of the piers have been rebuilt. Beneath the west abutment seventy-six piles were driven, and on these were placed the heavy timbers upon which the abutment rests. This extra work was necessary on account of the quicksand that was found in excavating for the abutment. The west pier stands on heavy bedstones, and the east one was built on the old foundations, which proved to be suitable, as were also the foundations for the east abutment. The bridge is 472 feet and 8 inches in length, and is about 15 feet longer than the old bridge, this extra length being mainly on the west end. The driveway is 18 feet wide, the height of the posts is 14 feet, and a walk 5 feet in width has been built on the south side. The bridge is 4 feet higher than the old one. It contains nearly 200,000 feet of lumber, and required 124,000 shingles to cover it. The trusses are of spruce, and the flooring and braces of pine. In the piers are about 287.45 cubic yards of stone, and in the abutments there are about 591.94 cubic yards. The approaches at each end are enclosed by railings, and are painted, as are also the ends of the bridge, and the figures 1891 have been placed above the roadway. The entire work, with the exception of a portion of the shingling, was done by the contractors, Messrs. Hazelton & Abbott, who received \$19,400. Work was commenced about the middle of June, and the bridge was opened for travel, as before stated, on November 28.

At 2 o'clock on that day the formalities between the Committee

on Roads and Bridges and the contractors took place; and George H. Mills, in behalf of the Committee on Roads and Bridges, made the following report:

MAYOR CLAPP: We are here this afternoon for the purpose of accepting the bridge which is now completed by the contractors, Messrs. Hazelton and Abbott, if it is found to be satisfactory to the Committee on Roads and Bridges and to the committee's engineer, Mr. W. B. Howe, who was appointed to superintend its construction. I would state that the bridge that was erected here some thirty-five years ago stood until the freshet of last March, which undermined the west abutment and pier and caused the west half of the bridge to be carried away. This took place on March 27, 1891, at about one o'clock in the afternoon. The first duty demanding attention was to provide some way for the public travel across the river. A notice was given to the aldermen to meet at your office on March 28, at which time a committee of three, composed of yourself and Aldermen Quimby and Crippen, was appointed to see about establishing a ferry. The duty was promptly attended to, and in five days a wire cable was stretched across the river and a ferry-boat was running. I wish to say in this connection that the prompt action of this committee is worthy of praise, and the work that your honor put in at that time is especially deserving of commendation. The boat had to be procured at Manchester, brought here on the cars, and made tight by calking and tarring before it could be put into service. It was placed in the river April 2, and a new plank floor was put in the boat while it was in use. Since then, with the exception of one day when the iron cable parted and a steel one was substituted, it has been in continuous use, and without any further accident, for a period of 241 days.

After the ferry was established, the next thing to be done was to take measures for the erection of a new bridge. The river at that time was high, and it was impossible to do anything until the water subsided. The matter was finally referred to the Committee on Roads and Bridges, to which the mayor was added, at the regular meeting of the city council held April 21. At a meeting of the committee, held April 24, Mr. Howe, the engineer, was authorized to survey two sites,—one where the bridge now stands, and the other about 1,000 feet farther down the river. On May 12 the committee decided to build on the old site a wooden bridge of modern

style, with a roadway eighteen feet wide and a walk five feet in width on the south side. On May 19 the committee reported their decision to the board of aldermen; on May 28 the report was accepted by the board; on June 5 bids were advertised by the committee for the stone-work and superstructure; on June 11 the bids were opened, and the contract for both the stone-work and superstructure was awarded to Hazelton & Abbott of this city, the work to commence within ten days from the time of signing the contract, and they were to remove the remains of the old bridge without any extra charge.

The committee believe that Messrs. Hazelton & Abbott have done a first-class job, and are entitled to much credit for the manner in which they have fulfilled their contract. I would move that the stone-work and the superstructure upon it, built by Messrs. Hazelton & Abbott, be accepted by the committee, and that the bridge be opened to the public. It was so voted.

H. W. CLAPP,

GEO. H. MILLS,

JAMES H. SANDERS,

LEONARD W. BEAN,

CHARLES L. WORTHEN,

Committee on Roads and Bridges.

EDUCATIONAL DEPARTMENT.

The school reports are not prepared until the close of the school year in March, and are consequently omitted from this volume.

PUBLIC LIBRARY.

REPORT OF THE TRUSTEES.

To the City Council:

The Trustees of the Public Library respectfully call your attention to the accompanying reports of the librarian and the treasurer, as showing the condition and the needs of the institution.

The extensive public patronage of the library continues to give assurance of the high estimation in which it is held, not only as affording wholesome enjoyment and happiness to all classes of the community, but as an important addition to the success of popular education supplied by our most excellent school system.

It is to be sincerely hoped that liberal assistance will continue to be given by the city to the maintenance and prosperity of an institution which has become indispensable to the welfare of our people.

Very respectfully,

CHARLES H. SANDERS,	WARD 1.
JOSEPH T. CLOUGH,	“ 2.
PAUL R. HOLDEN,	“ 3.
WILLIAM L. FOSTER,	“ 4.
CHARLES R. CORNING,	“ 5.

Nine thousand and twenty of the whole number of books issued were sent to Penacook and Boscawen.

Nine thousand three hundred and thirty-eight books were sent to Penacook and Boscawen in 1890.

The books have been well cared for, on the way and at Penacook, by Messrs. Cunningham and Gale, who have had them in charge.

Eleven hundred volumes have been purchased, including many valuable books for the reference library; and four hundred books and pamphlets have been received from various sources as donations to the library.

The reading-room has been kept open every day, and continues to be well patronized.

The printing of a catalogue of the books added to the library since Nov. 1, 1884, is nearly completed; this will be used instead of the supplements and bulletins that have from time to time been issued.

Two hundred and twenty-five bound volumes of the popular magazines of the day have been procured and bound, as the commencement of a magazine reference library. Filled as these volumes are with the productions of the best writers and scholars of the times, their contents must be of great value; while publications like Poole's Index to periodical literature, and others of similar character, will make their treasures easily accessible.

Respectfully submitted:

DANIEL F. SECOMB,

Librarian.

December 31, 1891.

REPORT OF THE TREASURER.

To the City Council :

The balance in the hands of the treasurer January 1, 1891, was \$62.22, to which has been added the city appropriation of \$6,000, and receipts from the library amounting to \$41.39, making a total of \$6,103.61 as available funds for the purposes of the library. Of this sum \$5,736.61 has been expended, as per itemized account in the expenses of the city, leaving a balance in the hands of the treasurer of \$367.00.

SANITARY DEPARTMENT.

SANITARY DEPARTMENT.

REPORT OF THE BOARD OF HEALTH.

To the City Council:

Your board respectfully present to your notice this their fifth annual report. Comparison of the death-rates sent to us by the boards of other cities shows that Concord still maintains her former enviable reputation for healthfulness. Typhoid and scarlet-fever have, in two of our sister cities in the Merrimack valley, found many victims. We have been spared the infliction of any epidemic. A few cases of infectious diseases have occurred, but thanks to the active, intelligent coöperation of our citizens, in sustaining the efforts of the board of health and its health officer, these cases have been isolated, and have not extended beyond the family in which they originated.

RESIGNATION OF DR. CONN.

Dr. Granville P. Conn, chairman of this board since its reorganization in 1887, resigned as a member at the middle of the year. A leader in the sanitary advancement of the day, and a recognized authority upon the subject, his services in behalf of improvement in the condition of his city have been very valuable. Thoroughly informed, public-spirited, and enjoying the confidence of his fellow-citizens, he brought to the inauguration of a new and advanced sanitary policy for Concord, qualities which availed greatly in securing for it the approval and coöperation of the community. He gave generously of time and thought to the duties of the board, and his retirement—because some of many cares must be laid aside—was regretted by his associates and by the public. The board know that his interest in the work has not lessened, and look to him for counsel which is always kindly given.

CONTAGIOUS DISEASES.

Diphtheria, scarlet-fever, and typhoid fever have demanded attention from the board during the year, and official action to prevent their extension has been taken when deemed advisable. In a community like ours, less difficulty than in most cities is experienced in inducing the public to take proper precautions in scarlet-fever and diphtheria, as they more fully appreciate the contagious and dangerous nature of these diseases ; yet, in many instances, great tact, discretion, and firmness are required in our executive officer, to bring about a proper observance of isolation and disinfection in their management. Several cases of scarlet-fever have caused the board considerable anxiety, but in every instance the precautionary measures taken have been effective in preventing its spread.

DIPHTHERIA.

The report of the health officer herewith appended, contains a summarized account of an outbreak of diphtheria of most malignant character, in the family of Josiah Batchelder, No. 70 South street, in close proximity to large families of children of an especially susceptible age. Soon the entire family of Mr. Batchelder, consisting of eleven persons, were down with the disease. It took on a more and more virulent type, and three children died in rapid succession, and some of the other cases were considered almost hopeless. It was early apparent to the board that a decided stand must be taken, if we were not to share in the experience of many other towns and cities ; and, after conferring with the authorities, a quarantine, as rigid as would be maintained in a case of small-pox, was ordered. The attending physician contracted a condition of the throat which made it imperative for him to relinquish the care of the cases, and he notified the board to that effect. After an ineffectual attempt by the family, through the quarantine officer, to obtain the services of a physician, we were asked to provide ; and through the proper authorities an arrangement was made for the city physician, who discontinued other work, to assume charge of the family. The remaining eight members ultimately recovered.

Another problem was the disposition to be made of infected

material, such as carpets, bedding, upholstered furniture, etc., and the proper cleansing of the house. The strongest advocates of sulphur fumigation do not claim that these, the principal carriers of contagion, can be thoroughly disinfected in this manner. Some cities have adopted steam disinfection, by means of an apparatus especially devised for the purpose, and naphtha baths for furniture; even then many cases are recorded as resulting from lack of efficiency in the work. It was the decision of the board, that the utmost thoroughness should be observed in removing every source of contagion, both from the infected furnishings and the house itself. The family greatly aided us in the matter, disinfecting and renovating the house throughout at large expense. In our judgment the work was all well done, and it is gratifying to us to report that the disease was absolutely confined to these initial cases. We desire at this time to express our appreciation of the hearty manner in which your honorable board endorsed our efforts to stamp out the disease, and for many gratifying evidences of your regard for the public welfare.

MARGARET PILLSBURY GENERAL HOSPITAL.

The munificent gift of Hon. George A. Pillsbury, of Minneapolis, our former townsman and one of our worthy ex-mayors, has been completed and appropriately dedicated during the year passed, and is now occupied,—a noble memorial to his most estimable wife. As perfect an isolating-room for contagious diseases as it was possible to make, was included in the construction of the building. Should, however, an epidemic of scarlet-fever or diphtheria come upon us, this single room would be entirely inadequate, and of little avail or assistance in stamping out the disease among our people, who, from insufficient means, or because they were occupants of boarding-houses, would be unable to care for their sick as the public safety would seem to demand. The board trusts that the city, or some generous individual, will see the need of an isolating building,—that shall be erected near the hospital, to be a part of that institution, and yet so far removed as to in no way endanger the inmates—a place where severe cases of infectious diseases could be promptly

carried, and where they would be carefully nursed and under control until all danger to the general public was passed.

REMOVAL OF ASHES, ETC.

Improvement has been made in the method of removing ashes and other refuse from the business portion of Main street by city teams. If the carts passed in the rear of the business blocks as well as in front, the necessity of carrying through stores, etc., such of the refuse as could be removed by basement entrances, would be obviated, and greater cleanliness and less annoyance to the public would result.

SEWER IMPROVEMENTS.

The completion of the South End sewer has been one marked feature of the year's sanitary progress. Other equally important work of this nature confronts the community, if these improvements are to keep pace with the city's needs. A larger sewer at the North End is demanded by present conditions, and will be made an absolute necessity by the probable growth of that section. One of the plans suggested, which seems feasible, is to replace the present pipe with a brick sewer, making ample allowance for prospective increased demands upon its capacity.

WATER-SHED OF PENACOOK LAKE.

Those conversant with the origin of typhoid fever and other so called filth-diseases due to contamination of drinking water, will appreciate what a blessing to Concord is our beautiful Penacook lake. Pure water we all recognize as a necessity. Long before the days of germs, the ancients knew that an abundant supply of pure water was essential to the health of the public. The board of health regards with grave apprehension the growing popularity, for picnic purposes and as a site for summer houses, of the shores of our lake. So long as excursionists are confined to the shores of Forge pond, near the gate-house and away from the inlet of our water main, the city is in no danger. The cottages now on the shores of the lake empty their sewage into properly constructed water-tight brick cess-

pools, which at intervals are cleansed, and their contents disposed of in such a way and at such a distance, as to render it impossible that any harm should result from their presence.

The city has no control over the water-shed of the lake however, and it is not a great stretch of the imagination to see, within a generation, a road along the east shore, lined with cottages that would most certainly menace the purity of our drinking water. Mill owners when building their dams, acquire by purchase the right of flowage. It seems to us that the city should seriously consider, in the near future, the necessity of acquiring the right of control over the water-shed of our water-supply, and thus be able to protect herself from the erection of any unsuitable building, or the use of the shores for any purposes whatever that might be deemed detrimental to the health of our citizens.

THE HEALTH OFFICER.

The report of the health officer, Henry A. Rowell, herewith submitted, carries its own comment upon his zeal and faithfulness. The duties of his office are oftentimes unpleasant, sometimes dangerous, at all times onerous. Upon the efficiency with which they are performed, largely depends the success of the efforts of the board to secure compliance with the sanitary regulations. To say that Mr. Rowell has met every requirement of the position, so far as the board knows, is only a just acknowledgement of the value of his services to us and to the community. The added work of sewer inspection has been performed intelligently and zealously by Mr. Rowell.

Respectfully submitted :

E. A. CLARK, M. D.,

C. R. WALKER, M. D.,

E. N. PEARSON, *Secretary*,

Board of Health.

REPORT OF THE HEALTH OFFICER.

To the Board of Health:

GENTLEMEN: The health officer herewith submits a report covering the affairs of his office during the year ending Dec. 31, 1891. The requests for investigation, complaints, and cases found by the health inspector to need attention, aggregate 622, as follows:

Bad well-water,	4
Bad sink drainage,	47
Dead animals,	32
Defect in house sewers,	19
Dumping rubbish,	17
Damp cellars,	9
Nuisances in hall-ways,	6
Water-closets without sufficient water-supply,	34
Water-closets not ventilated,	9
Water-closets foul and offensive,	26
Water-closets with no water-supply,	4
Filthy alley-ways,	6
Dropping manure from carts in street,	4
Filthy stables,	8
Filthy cellars,	4
Water in cellars,	7
Filthy back-yards,	4
Broken sewer traps,	11
Night soil not properly covered,	5
Offensive manure heaps,	16
Filthy swill barrels,	6
Stoppages in house sewers,	14
Accumulations of tin cans and coal ashes in back-yards,	14
Accumulations of decayed fruit, vegetable matter, and old papers in rear of stores.	18

Sinks found without traps,	22
Offensive cow-yards,	3
Offensive privies and vaults,	101
Privy-vaults full, and owner notified to remove contents,	41
Stagnant water in stable cellars,	4
Stagnant water on lots in rear of dwellings, and ordered filled,	5
Water-closets out of repair,	7
Offensive catch-basins on streets,	29
Open sewers under dwellings,	14
Keeping hogs and pigs,	8
Throwing slops into street,	5
Throwing slops from meat-markets into catch- basins,	3
Throwing coal ashes into streets,	11
Street sewers obstructed,	5
Catch-basins not trapped,	26
Keeping hens,	4
Throwing swill in ash barrels in business blocks, .	4
Throwing swill in alley-ways,	6
	<hr/>
Total,	622

It will be seen that the list of requests and complaints made at this office in 1891 was somewhat larger than in 1890.

The following table shows the total number of complaints each year since 1880 :

Total number of complaints in 1880,	17
“ “ “ 1881,	17
“ “ “ 1882,	12
“ “ “ 1883,	14
“ “ “ 1884,	17
“ “ “ 1885,	39
“ “ “ 1886,	28
“ “ “ 1887,	176
“ “ “ 1888,	109
“ “ “ 1889,	383
“ “ “ 1890,	516
“ “ “ 1891,	622

In a majority of the complaints made to the health officer the complainant has had good reason for so doing. There have been fewer complaints of privies and vaults than in former years, which is accounted for by the fact that water-closets have been substituted for privies and vaults. All new houses built the past year on the line of the sewers have been connected therewith, and supplied with water-closets. At the present time there are 2,034 water-closets in actual use.

SANITARY INSPECTIONS.

The work of house inspection has been continued during the year, where it appeared that the most improvement could be made in the sanitary condition of premises,—such as having water-closets set, surface drains abandoned, and connections made with the public sewers. During the year inspections have been made as follows :

198 private dwellings,
341 tenements,
2 boarding-houses,
49 stables,
4 meat-markets,
1 fish-market,
16 store cellars,
1 hotel,
13 business blocks,

—making a total of 625. There have also been second inspections in 264 cases, third inspections in 84, and in a few cases a fourth and fifth inspection has been required to determine whether the orders of the health officer have been carried out.

There have been sent through the mail 741 formal notices embodying suggestions from the health officer, of the following nature :

87 for abatement of nuisances,
131 for cleaning vaults and privies,
172 for providing water-closets,

127 for removing old privies,
 131 for connecting with sewer,
 11 for removal of hogs,
 59 for obstructed private sewers,
 6 for removal of offal,
 6 for unburied dead horses,
 7 for unburied dead dogs.

In 179 cases, vaults and privies have been removed and water-closets substituted, and 83 additional water-closets have been set in houses built during the year. These closets have been placed in the following classes of buildings :

68 private dwellings,
 178 tenements,
 3 business blocks,
 1 public institution,
 3 boarding-houses,
 1 plumber's store,
 1 eating-house,
 1 carpenter's shop,
 1 laundry,
 3 offices,
 1 saloon,
 1 private school,
 1 physician's office.

CONTAGIOUS DISEASES.

Cases of contagious diseases have been reported by physicians to this office by months as follows :

	Jan.	Feb.	Mar.	Apr.	May.	June.	July.	Aug.	Sept.	Oct.	Nov.	Dec.
Scarlet-fever,	0	1	0	1	0	0	0	1	0	0	2	2
Typhoid fever,	1	0	2	0	0	1	1	0	1	3	1	4
Diphtheria,	0	0	1	6	2	0	0	0	1	1	0	0
Measles,	0	0	0	0	0	0	0	0	0	0	2	0

These cases have been reported from the following wards :

	Typhoid fever.	Scarlet-fever.	Diphtheria.	Measles.	Total.
Ward 1,	2	1	0	0	3
“ 2,	1	0	0	0	1
“ 3,	1	0	0	0	1
“ 4,	1	5	2	2	10
“ 5,	3	0	3	0	6
“ 6,	3	1	6	0	10
“ 7,	3	0	1	0	4
	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>
Total,	14	7	12	2	35

From the cases reported, nine deaths resulted,—three being from diphtheria, and six from typhoid fever.

April 13 the attending physician reported to the health officer a case of diphtheria in the family of Josiah Batchelder, No. 70 South street. The officer made an inspection of the premises, but found the sewer all right and properly trapped. In the rear of the premises was an old brook that had been cut off a few years before, causing water to stand until it became at times very offensive and injurious to residents in that vicinity. The board of health decided that the place ought to be filled, and arranged with his honor the mayor for the immediate filling of the brook. By many persons it was thought that the diphtheria in the family of Mr. Batchelder was caused by the stagnant water.

The board of health, at a meeting held April 22, considered the disposition to be made of the carpets and bedding in the Batchelder house, and decided that the only safe course was to burn them, and an order to this effect was carried out by the health officer. By their orders, also, the house was placarded, the family quarantined, and a responsible person provided to attend to the wants of the members. Quarantine was maintained from April 23 until May 19. There were three deaths in the family,—the youngest two years, and the oldest ten years.

SEWER CONNECTIONS.

In compliance with the city ordinances, the health officer has endeavored to perform his duty in regard to the enforcement of

rules and regulations relating to sewers and drains. In all but a very few cases he has been notified in season to see the connection made. As a rule the licensed drain-layers have respected the ordinances relating to sewers.

During the year, 124 sewer connections have been made, and the health officer has made a complete record of the date of connection, location of inlet, location of trap inside or outside of house, size and kind of pipe, fall to the foot, total length of pipe, and name of licensed drain-layer doing the work. The inspections which have been made of lateral sewers connected with the main sewer, have shown that the material has been in all cases Akron pipe and cast-iron pipe.

The length of the various sizes laid the past year is as follows :

70 feet 10-inch Akron pipe,
 468 feet 8-inch Akron pipe,
 1,068 feet 6-inch Akron pipe,
 64 feet 6-inch iron pipe,
 6,750 feet 5-inch Akron pipe,
 120 feet 5-inch iron pipe,
 160 feet 4-inch Akron pipe,
 60 feet 4-inch iron pipe,

—making a total of 8,760 feet, or an average of 70 feet for the 124 different lateral sewers laid during the year 1891. Lateral sewers were furnished for

54 private dwellings,
 109 tenements,
 1 boarding-house,
 2 saloons,
 1 public institution.

Fifty-two of the above mentioned connections have been made in houses erected during the year. Six lateral sewers have been taken up, and relaid with larger pipe for the purpose of putting in water-closets. In seven cases, cement-pipe drains and old style stone drains have been taken up, and relaid with Akron pipe.

During the year there have been abandoned and discontinued by order of the board of health

- 29 cesspools,
- 37 surface drains,
 - 4 drains discharging under stables,
 - 4 wells used as cesspools.

The main sewers have been extended to many localities where they were very much needed, and sewers have been built the past year that will be appreciated by persons who contemplate building the coming year, as will be seen by the report of the committee on sewers and drains.

The extension of Liberty street from Warren street provides sewer connections for four or more houses, two of which have already been connected.

A new sewer has been built in Morton street, providing accommodations for new dwellings erected during the year; all of which were connected as soon as the main sewer was completed.

A new sewer in Harrison street provides accommodations for some eight building lots, on two of which houses have been erected the past year and connected with the public sewer.

The extension of the Mills street sewer furnishes accommodations for six or more dwellings, three of which have already been connected.

• A sewer has been built in Broadway, south of West street, as far E. B. Hutchinson's double house, the past year, and three houses have been connected with it.

A sewer built in Rollins court provides accommodations for three dwellings, two of which are already connected.

A monthly statement of the mortality of the city has been prepared from the returns made to the city registrar, and furnished to the daily papers, and sent in exchange to other places. Reports received in exchange from other cities and towns show that Concord's average death-rate is below that of a majority of those places.

During the year, at the request of several owners of residences, the health officer has made peppermint tests of plumbing and sewerage. In one case a broken water-closet, from

which sewer gas escaped into a bath-room used by nearly every one in the family, was found. The occupants of the house had suffered more or less with sore throats. Two business blocks have been examined with the peppermint test, without disclosing any serious defect.

I would recommend that the Bradley street sewer be relaid early next spring. It is very badly grown up with roots, which will make trouble if not attended to at the earliest practicable moment. This is the third winter this sewer has been dug up on account of being obstructed by roots.

I would again call the attention of the Committee on Sewers and Drains to the Cross street sewer, which has given trouble by being obstructed for the past three winters. Something must be done to this sewer next season, before the health officer can do anything in regard to compelling the putting in of water-closets.

Health Officer.

REPORT OF THE CITY PHYSICIAN.

To the City Council:

The City Physician hereby presents his report for the year ending Dec. 31, 1891:

Whole number of visits,	131
Consultations at office,	21

The duties of the position have been varied, including, beside the ordinary work, considerable surgery and the care of the diphtheria cases at No. 70 South St., an account of which is contained in the report of the board of health.

Such experiences emphasize the need of an isolating building, as suggested by them, run in connection with the hospital, where, in case of necessity, patients suffering from malignant contagious diseases could receive every possible attention, and the danger to the public be reduced to the minimum. In the old hospital building there was no provision made for such cases, and they could not be received.

Respectfully submitted:

E. A. CLARK, M. D.,
City Physician.

POOR DEPARTMENT.

POOR DEPARTMENT.

TWENTY-FOURTH ANNUAL REPORT OF THE OVERSEER OF THE POOR FOR THE YEAR ENDING DECEMBER 31, 1891.

To the City Council:

GENTLEMEN: The undersigned herewith submits the twenty-fourth annual report of expenditures for the poor, including Wards 1 and 2, for the year ending December 31, 1891, as follows:

Families and individuals having a settlement in the city have been aided, in part or in full, during the time, to the amount set opposite their respective names:

Mrs. William O'Neil,	\$132.23	
Mrs. Lydia S. Couch,	92.50	
Mrs. Margaret Smith,	96.00	
David O. Smith,	232.98	
Peter F. Elliott,	81.03	
Charles H. Calef,67	
Smith Bean,	107.35	
Howard F. Caswell,	2.00	
	\$744.76	
Paid State Industrial School,—		
William Matthews,	\$78.00	
Frank Knee,	78.00	
	\$156.00	
Amount expended for city poor,		\$900.76

COUNTY POOR.

I would most respectfully call your attention to the fact that this department is subject to calls from any part of the city to make arrests, and to respond to all alarms of fire, which always requires a team. I would suggest that a shed suitable for one horse, one wagon, and the city ambulance should be added to the police station.

POLICE FORCE.

I take pleasure in returning thanks to the Board of Mayor and Aldermen for granting the additional officers asked for. I can suggest no improvement as to the numbers or qualifications of the officers, and I thank them for the cordial support and assistance I have received at their hands.

IN CONCLUSION.

To the Board of Mayor and Aldermen I return my sincere thanks for the courteous treatment this department has received at their hands.

I wish to thank His Honor Mayor Clapp for the kind consideration and assistance rendered this department.

We have found Harry G. Sargent, city solicitor, ready and willing, night or day, to advise and aid us, for which our thanks are due him.

Respectfully submitted:

G. SCOTT LOCKE,

City Marshal.

REPORT OF THE POLICE COURT.

To the City Council:

The Police Justice herewith submits his annual report for the year 1891:

The number of civil actions entered in the police court was	125
The number of arraignments before the Police Justice for criminal offences was	545

The nature and disposition of the criminal prosecutions brought in behalf of the city are set forth in the report of the city marshal for the year 1891.

The Police Justice charges himself as follows:

For fines and costs received in criminal prosecutions up to the time when the same were made payable to the city marshal,	\$739.19
For fees received in civil actions,	89.47
	<hr/>
	\$828.66

And discharges himself as follows:

Paid city marshal for fees and costs,	\$219.21
Paid outside parties for fees and costs,	13.97
Paid city treasurer,	595.48
	<hr/>
	\$828.66

B. E. BADGER,
Police Justice.

Concord, N. H., December 31, 1891.

REPORT OF THE SPECIAL JUSTICE.

To the City Council:

The Special Justice of the Police Court submits the following report:

I have held court three days during the year ending December 31, 1891:

I charge myself as follows:

To fines in criminal cases,	\$6.00
To costs "	9.52
	\$15.52

I discharge myself as follows:

By cash paid city marshal, fees and costs, . . .	\$5.52
By cash paid city treasurer January 20, 1892, . . .	10.00
	\$15.52

A. J. SHURTLEFF,
Special Justice.

Concord, N. H., January 20, 1892.

REPORT OF THE CITY SOLICITOR.

To the City Council:

In submitting my annual report I shall refer first to the cases pending at the date of my last report, in which the city was interested as a party.

The case of Amoskeag Manufacturing Company against Concord was argued at the December law term, 1890, by Hon. David Cross for the Amoskeag Company, and by the solicitor for the city. At the March adjourned law term, 1891, the case was decided in favor of the city, and the right of the city to tax one half of the Garvin's Falls water-power, which was the principal legal question involved in the suit, was sustained. The case is now pending in the trial term to settle certain questions of value outside the water-power. There are also three more suits pending in court, brought by the Amoskeag Manufacturing Company, for an abatement of taxes assessed for the three years subsequent to the assessment complained of in the first suit.

The case of Haskell against Concord was settled by the payment of \$100 to the plaintiff and an agreement to fix a sewer running through her land.

The case of Maria Harrison against the city was settled by the payment of \$925 to the plaintiff by the city. A settlement of the case was necessitated by the fact that a few days before the case was to be tried by the jury some of the city employes filled up the place where the injury to the plaintiff was alleged to have occurred, and which the plaintiff claimed was defective. This would naturally prejudice the city's case before a jury, and a settlement was effected.

The case of Merrimack County against Concord, which was decided against the city in July, 1890, was reargued by the solicitor for the city, and Albin & Martin for the county, and

the first decision was reversed, and the case was finally decided in favor of the city.

The case of Lowell Eastman against Concord was settled recently by the payment of \$4,300, an increase of \$1,800 over the amount originally awarded.

The case of Benj. E. Badger and William S. Badger against Concord was settled by agreement between the plaintiffs and the board of aldermen, and the case has been taken from the docket.

The case of Charles R. Burnham against Concord was tried at the April term, 1891, of the supreme court, and resulted in a disagreement of the jury. The case will probably be tried again at the next April term.

The suit of George W. Waters against Concord was settled by the Concord Horse Railroad without expense to the city.

The suit of Frederick C. Thompson against Concord has been disposed of by the administrator's, Arthur H. Chase, withdrawing the suit without cost to the city.

The suit of Concord against Betsey J. Burleigh was brought to recover \$75, being the expense of moving a wooden building belonging to the defendant from the street, where it was obstructing travel. A verdict was rendered in favor of the city for the amount claimed. The defendant took exceptions to the verdict, and the case is now pending before the law term.

Betsey J. Burleigh against Concord, is a suit brought to recover \$1,000 for damages alleged to have been caused by the passage of an ordinance enlarging the fire precinct, and by the procuring of an injunction against her, preventing her from locating her building on a lot within the limits of the precinct as enlarged. A motion to dismiss the action has been filed.

Bridget Stickney against Concord is an action brought to recover \$1,000 for injuries claimed to have been caused by the alleged defective condition of Prince street.

Notices making claims against the city for damages on account of alleged defective highways have been filed as follows: Ann Carrier, filed December 28, 1891, claim \$1,000; Anson C. Alexander, January 1, 1892, claim \$1,000.

HARRY G. SARGENT,
City Solicitor.

REPORT OF CITY LIQUOR AGENT.

To the City Council:

In compliance with section 11, chapter 109, of the General Laws of this state, and the resolution of the Board of Mayor and Aldermen, of May 26, 1888, establishing this agency, I respectfully report the transactions of this office for the year 1891.

ON HAND JANUARY 1, AND PURCHASED DURING THE YEAR.

Wines and liquors on hand January 1, per report, 248 $\frac{2}{3}$ gallons, 112 bottles, and malt liquors 135 bottles,	\$1,172.53
Purchased of M. S. Brown, state liquor commissioner, 960 gallons, 156 bottles, and malt liquors 588 bottles,	
Total, 1,208 $\frac{2}{3}$ gallons, 268 bottles, and malt liquors 723 bottles,	3,065.59

MOSES LADD,
City Liquor Agent.

Concord, N. H., December 31, 1891.

STATE OF NEW HAMPSHIRE.

MERRIMACK COUNTY SS.

Personally appeared Moses Ladd, and made oath that the foregoing account by him rendered is correct, according to his best knowledge and belief.

Before me :

J. A. COCHRAN,
Justice of the Peace.

PUBLIC PARKS.

PUBLIC PARKS.

REPORT OF THE PARK COMMISSIONERS.

To the City Council :

The Park Commissioners present herewith their third annual report, covering the year 1891.

The work at White park during the past year has been largely dependent upon the amount available for the general care and construction of the park, in carrying out the details of the original plan upon which all proposed improvements are based. It will be seen from the report of the treasurer that the sum of \$1,800 has been available for all purposes, and that sum has been expended, as shown in the treasurer's itemized account. The commissioners were fortunate in securing the services of Mr. Andrew Taylor, as superintendent for the season, and his fitness for the position seems to be amply shown from what has been accomplished. The general work in the park was commenced in the month of April, and continued without interruption until the middle of October, when the funds were exhausted, and further work for the season was discontinued. The surface of the level area in the south-west portion of the park has been finally levelled and carefully smoothed to grade, and most of the territory contiguous to Washington street and the southerly end of White street has been put in like condition and carefully seeded down. Over a considerable portion of this tract the grass made a good growth, and in many parts was in condition for mowing, which was attended to several times during the latter part of the season. The indications are encouraging for a satisfactory lawn in the near future.

In accordance with the suggestion made in our report of last year, it was decided to construct a temporary fence about the southerly and easterly sides of the park, and such an one has been erected, which will answer for present requirements, although it is in its design and construction only intended for temporary use.

The matter of the laying of a concrete sidewalk has been delayed, because of the lack of funds at the disposal of the commission, although we are of the opinion that its early completion would add much to the general beauty of the park in outline and finish. A great deal of care has been expended upon the walks, with a purpose of making them practically permanent, suited to the accommodation of the public, and easily cared for.

The work for the immediate future which seems to require most attention will consist in elaborating some of the details for the development of the park in its more exposed portions. The planting of suitable shrubbery and trees, where required, should be commenced at once, in order that they may attain suitable growth to fulfil their purposes with the least possible delay. The extension of the electric railway to the vicinity of the park will undoubtedly largely increase its visitors, although the number who have shown their interest in the park the past season has been most gratifying. It is believed that after the grounds are once properly completed, a moderate expenditure will serve to keep them in condition, and that the public will obtain such benefit from its use as will more than compensate for all the time, labor, and money which may have been expended in putting it in condition. An appropriation was made in March, 1891, for the purchase of a small strip of land at the northerly end of the park, in order that its boundary might be extended to Beacon street, and any objectionable use of such land for other purposes be prevented. The appropriation has not been used, because of some question regarding a possible requirement for a vote of the public, in addition to the vote of the city council. We would request that the matter be referred to the city solicitor, in order that if any further action is required it may be provided for at the proper time.

In comparison with many cities the appropriations of Concord for her parks and commons are very small, and whatever is to be accomplished in the enhancement of the beauty and attractiveness of these breathing-places must be measured by the amount appropriated. The growing popularity of White park, and its accessibility, will cause it to be more and more frequented as the years go by, and we therefore ask your careful consideration to its claims for a generous support in providing means for its full development. We especially ask that a sufficient sum may be appropriated to

warrant the continuance of the services of a superintendent for the full year, and if an additional sum could be provided for the construction of a small green-house, we believe it could be well expended, and to the great satisfaction of the frequenters of the park and of the general public.

Respectfully submitted :

HENRY W. CLAPP,
JOHN F. JONES,
WILLIAM P. FISKE,
GEORGE A. YOUNG,
BEN. C. WHITE,
EDGAR H. WOODMAN,
BENJAMIN S. ROLFE.

Cash received from city treasurer,	\$6.00
Cash paid Wm. H. Currier for work during the season,	\$6.00

EDWIN W. ROBINSON,
 FRANK G. PROCTOR,
 ISAAC N. ABBOTT,
Committee.

REPORT OF THE COMMISSIONERS OF CEMETERIES.

To the City Council of the City of Concord :

By the act of Nov. 11, 1890, passed by your honorable body, the special committee appointed in 1887 to build a wall in front of Blossom Hill cemetery was dissolved, and a Board of Commissioners of Cemeteries became their successors, in whose hands you placed the care of both the Old North and Blossom Hill cemeteries. The commissioners at once organized, and began the work of the year just passed.

The appropriations placed at their disposal have been substantially expended, as will be seen by the report of the treasurer, and in a way, it is hoped, which will meet with your approval.

The original plans for a gateway have been somewhat modified, and approaches to the entrance have been built, which, with the addition of two central posts, will present an appearance both pleasing and substantial. The front wall has also been completed. A large amount of grading has been done along the front of Blossom Hill cemetery, which has necessitated the expenditure of a considerable part of the appropriation, but the commissioners feel confident that the results obtained have warranted the expense.

The commissioners have graded and sodded two large blocks of lots, which will be in a condition to sell the coming year.

Acting under your special appropriation and instructions, the commissioners have built about a hundred feet of wall in front of Calvary cemetery, the same in every respect as the wall in front of Blossom Hill cemetery.

The amount of this wall to be built the coming year rests with your honorable body, and no doubt will be considered in your appropriations.

The improvements made by the commissioners have not been

confined wholly to Blossom Hill cemetery. All the leaning and fallen stones in the Old North cemetery have been righted, a new fence built along its south side, lots graded and sodded, and numerous other improvements made that seemed necessary.

There is a large amount of very necessary work for which our plans are ready, and which should be done the coming year, but how much can be done will of course depend upon the appropriation to be made by your honorable body: that it will be a liberal one cannot be doubted, and it is sincerely hoped it will enable the commissioners to carry on their work rapidly to completion. Thus will our cemeteries, surpassed in natural beauty by none in the country, be still more beautified and adorned, and the resting-place of our beloved kindred and friends become more and more in harmony with our beautiful city.

GEORGE O. DICKERMAN,

Secretary of Commissioners of Cemeteries.

TREASURER'S REPORT.

(Special.)

CHARLES G. REMICK, *Treasurer*,

In account with COMMISSIONERS OF CEMETERIES.

Total,		8,700 feet,	1,900 feet.

HYDRANTS.

There are 204 public and 22 private hydrants, 21 public hydrants having been put in this year.

APPARATUS AND FORCE.

The force of the Department is as follows: Precinct, located at the Central Fire Station, one first-class Amoskeag engine, “Eagle,” with Eagle Hose Company (15 men); two second-class Amoskeag engines, “Kearsarge,” with Kearsarge Hose Company (16 men); “Gov. Hill,” relief steamer, in charge of an engineer and fireman belonging to “Kearsarge Company;” the Hook and Ladder Com-

pany, "City of Concord" (20 men). There are seven horses, owned by the Department, kept at this station.

The Alert Hose Company (13 men), located on Washington street, has a modern hose wagon, and have a horse at the house at all hours.

The Good Will Hose Company (13 men), located on the corner of Cross and State streets, has a modern hose wagon, and have a horse at the house at all hours.

All the members, excepting steward, assistant steward, and three drivers at the Central Fire Station, are call men.

The Precinct companies have swing harnesses on all apparatus.

The "Pioneer" steamer, at Penacook (28 men), is a fourth-class Silsby, with second-class Amoskeag reel (4 wheels). The steamer can be drawn by hand or horses, as necessity requires.

The Cataract Company (30 men), at West Concord, has a Hunneman 6-inch cylinder hand-engine, and a second-class 4-wheel reel, Amoskeag make, drawn by one horse and provided with swing harness.

Old Fort, at East Concord (30 men), has a 5-inch cylinder Hunneman hand-engine.

We are under obligations to the Mayor and Committee on Fire Department for many courtesies, and to the members of the Department for energy shown during the year in all matters pertaining to their work.

Hunneman 6-inch cylinder hand-engine, two hose jumpers, and hose sleigh in charge of this company—drawn by hand.

REGULATIONS OF THE CONCORD PRECINCT FIRE DEPARTMENT.

ADOPTED BY THE BOARD OF ENGINEERS, AUGUST, 1888.

ARTICLE 1. Any engine or hose company running out a line of hose from a hydrant or steamer shall be entitled to the pipe, although the hose of other companies may be attached in order to reach the fire; and any company coming to a fire, and finding an incomplete line of hose laid out from a hydrant or steamer, shall attach to and lengthen out such line in lieu of laying a line of its own.

ART. 2. When two or more engine or hose companies are playing in a continuous line, the pipe shall belong to the company attaching to the hydrant or steamer, as provided in the foregoing article; but any company furnishing the *entire* line, and receiving water from a steamer, the pipe shall belong to such company so receiving.

ART. 3. Each engine and hose company shall have equal claim to the hydrants; but it is enjoined upon the engine companies to draught their own water from a reservoir, whenever a suitable one can be found within a reasonable distance.

ART. 4. No company shall take possession of a hydrant or reservoir, unless their hose and apparatus for attaching to the same are at hand and ready for use. The company which shall be thus ready shall be entitled to such hydrant or reservoir; but, upon the order of an engineer, another company may attach a second line of hose from such hydrant or steamer, in case the same may be necessary, such company having first laid its hose, and being ready to attach the same.

ART. 5. No engineer shall interfere with, or attempt to give orders relative to the location or use of, a line of hose when he has ascertained that another has command of it, unless by consent of the engineer in charge of it, or by orders of the officer in command at the fire; and it shall be his duty to inquire whether there is an officer in charge.

ART. 6. In proceeding to, working at, or returning from fires, noisy demonstrations are strictly prohibited, and it is required of officers of companies to maintain perfect order and decorum in their respective commands during all such service.

ART. 7. No company, while returning from a fire, will be allowed to proceed faster than a walk, and it must at all times keep on the right of the street. Drivers are strictly enjoined, in proceeding to a fire, to use the utmost care and caution consistent with promptness. Racing between companies is forbidden under any circumstances. Any collision or casualty occurring to horses or apparatus will be considered a sufficient cause for the suspension of the driver in charge at the time.

ART. 8. No member of any company shall leave the city without first informing his foreman; no foreman, or assistant engineer, without first notifying the chief-engineer,—in each case the party so leaving providing a substitute.

ART. 9. In case of fire, the foreman first arriving shall be in command until the arrival of an engineer.

ART. 10. Any order issued by the chief or an assistant engineer shall be promptly obeyed.

RULES FOR DRIVERS.

The drivers shall be required to occupy sleeping apartments in the Central Station, each being allowed two nights off each week, from 9 o'clock P. M. to 6 o'clock A. M., upon particular nights to be designated by the steward.

They shall be at or near the station at all times, except when employed by the superintendent of streets, or absent by permission of the steward or an engineer, and shall perform such duties as the steward or chief-engineer may direct.

They shall groom and take proper and trusty care of their horses; shall keep the stables clean, and the harnesses and all things pertaining to their department in order; shall have the horses harnessed as directed, and not leave the station without everything in readiness for immediate service; shall exercise their horses when required by the steward or chief-engineer, and practise care and economy in feeding and general management.

In proceeding to Main street, *via* Warren street, the drivers shall trot their horses, and have them under complete control until the turn has been made.

In case of fire, the drivers shall be subject to the orders of any engineer.

FIRE-ALARM TELEGRAPH.

NUMBER AND LOCATION OF FIRE-ALARM BOXES.

For the purpose of uniformity in numbering the fire-alarm boxes, the city is divided into five districts, viz. :

DISTRICT 1 Embraces that section of the city north and west of Washington street, box 17 of this division being located on the *south* side of the street.

DISTRICT 2. Embraces all between School and Washington streets.

DISTRICT 3. Embraces all between Pleasant and School streets.

DISTRICTS 4 and 5. Embrace all south of Pleasant street.

The first figure of the box number will indicate the district.

DISTRICT No. 1.

- 13. Franklin and Rumford.
- 14. State and Penacook.
- 15. Main and Church.
- 16. Franklin and Jackson.
- 17. Alert Hose House.
- 18. Greeley & Todd's store.

DISTRICT No. 2.

- 23. Main and Chapel.
- 24. Main and Centre.
- 25. Main and School.
- 26. Centre and Union.
- 27. School and Merrimack.

DISTRICT No. 3.

- 32. Warren and Pine.
- 34. Central Fire Station.
- 35. Main and Pleasant.
- 36. Pleasant and Spring.
- 37. Junction Pleasant and Washington.

DISTRICT No. 4.

- 41. South and Thompson.
- 42. Good Will Hose House.
- 43. Main and Fayette.
- 45. L. B. Hoyt's store.

- 46. Perley and Grove.
- 47. South, opposite Downing.
- 48. Thorndike and South.
- 49. West and Mills.

DISTRICT No. 5.

- 52. Turnpike and Allison.
- 56. S. Paul's School.

PRIVATE BOXES.

- 5. Concord and Northern Railroads—north end Passenger Depot.
- 6. The Abbot-Downing Company.
- 7. New Hampshire Asylum for the Insane.
- 8. Page Belting Company.
- 33. State-house.

Names of key-holders will be found on the boxes.

 FIRE-ALARM SIGNALS.

1. Alarms rung in from boxes 41, 42, 43, 45, 46, 47, 48, 49, and 56, will *not* be responded to by the Alert Hose until signalled. The signal to proceed to the fire will be a second alarm; the signal of dismissal, *three strokes* of the bells.

2. Alarms rung in from boxes 13, 14, 15, 16, 17, 18, 23, 26, and 56, will *not* be responded to by Good Will Hose until signalled. They will be governed by the same signals as the Alert Hose.

3. *Eleven consecutive strokes* of the bells, following any regular box alarm, or during any fire, is a call for the relief steamer (Gov. Hill).

4. *Two rounds* of each *eleven strokes* of the bells, with an intermission of one minute between the rounds, without any regular box alarm, will signalize the requirement of a steamer from outside the Precinct, and will be responded to by Kearsarge and Eagle Hose companies alone. In case further aid is necessary, the box-alarm 34 (Central Station) will follow.

(These rounds of eleven strokes, which are signals for the relief steamer, or a call from out of town, must not be confounded with an alarm from private boxes 5, 6, 7, or 8.)

From the above, it will be seen that the companies are subject to calls as follows :

Steamer Kearsarge and Hose—To all calls.

Eagle Hose—To all calls.

Hook and Ladder—To box alarms only.

Alert Hose—To box alarms only above Pleasant street, all private boxes, and upon second alarm to boxes below.

Good Will Hose—To box alarms only below Centre street, all private boxes, and upon second alarm to boxes above.

The signal for dismissal (three strokes) is used only for the purpose of notifying the companies *not* on duty that their services are not required, and does not imply that the fire is out, or that the companies *on* duty are dismissed.

TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Monday afternoon at 4:30 o'clock *precisely*. It will be *one single round only*, indicating by the strokes on the bells the number of the box; and the box will then be cut out, and no additional round sounded. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week-day a single blow upon the bell will be struck from the button of a box, alternating as before mentioned.

THE FIRE-ALARM TELEGRAPH

Is the "Gamewell" patent. It embraces twenty-four miles of wire on the main lines, and seven miles of extension wire for call-bells.

On the main line are twenty-six fire-alarm boxes belonging to the city, and five private boxes,—in all, thirty-one. There are three alarm bells,—one of 3,724 pounds (bell-metal), one of 3,740 pounds (bell-metal), and one of 2,000 pounds (American steel). There are also seven engine-house gongs, four mechanical tappers, one four-circuit repeater, and three indicators.

On the extension line are twenty-three call-bells.

The battery consists of 103 cups for the main line, and five cups for the extension.

The alarm was put in in 1880 by Edwin Rogers, 27 Federal street, Boston, Mass.

PUBLIC RESERVOIRS.

	Capacity—Cubic feet.
1. Main street, opposite Abbot-Downing Co.'s,	1,000
2. “ near Thorndike street,*	1,500
3. “ corner of Pleasant street,*	1,500
4. “ middle front state-house yard,	1,500
